

TALENT POOL

Here in saha we want to make the process of applying for a job as simple as possible.

That's why we have automated the recruitment system as much as possible. For instance, when you register with saha if you already have a CV you can simply upload it and it will automatically complete most of your registration and application forms.

We have also developed a talent pool.

We recognise that we won't always have the perfect type of job available for you. However, the talent pool allows you to register with saha and to deposit your details and information about the type of job(s) you are interested in being considered for.

If a suitable job crops up in the future, we will automatically contact you to invite you to apply. It's as simple as that.

Of course, there may also be times when our hiring managers manually trawl the talent pool when looking for potential candidates with specific aptitudes, qualifications or experiences. The hiring manager might contact you direct to discuss the possibility of applying or being considered for a job.

Whether you are actively looking for a job or perhaps looking to keep up to date with potential roles for the future – register with the saha Talent Pool – its the ideal way to receive job alerts.

Remember also, that you remain in control. When registering there are different settings available which means you control many aspects of registration, including how long you want to remain in the Talent Pool. You can also withdraw registration at any time. We have a Recruitment Privacy Policy that fully explains your rights.
